

ILT in Australia, lessons to be learnt

Prof. Dr. Amir Hadjinoormohammadi, DVM, PhD

Professor in Avian Medicine

Veterinary Anatomic Pathology and Avian Medicine divisions at the Faculty of Veterinary and Agricultural Sciences, Melbourne University

✉ amir.hadjinoormohammadi@unimelb.edu.au

Since graduated with a DVM degree from Tehran University in 1990, Amir has been working almost exclusively on avian diseases in various capacities. He completed his PhD study at the University of Melbourne (1997) on molecular pathogenesis of avian mycoplasmosis and since then has led various research projects on molecular diagnosis, epidemiology and control of avian pathogens including *Mycoplasma gallisepticum*, *M. synoviae*, *Chlamydophila spp.*, Infectious Laryngotracheitis Virus, Infectious Bronchitis Virus and Fowl Adenoviruses.

Amir has authored more than 110 scientific articles and several book chapters in the reference book Diseases of Poultry and OIE Manual of Diagnostic Tests and Vaccines for Terrestrial Animals.

Amir is a registered veterinarian in Australia, and a member of the Australian & New Zealand College of Veterinary Scientists, and Avian Pathology editorial board. Currently, Amir is a Professor and Heads the Veterinary Anatomic Pathology and Avian Medicine divisions at the Faculty of Veterinary and Agricultural Sciences, Melbourne University.
